CHARITY AND UNCOMPENSATED CARE

Purpose
To provide definition of health care assistance to eligible beneficiaries and define the administrative processes and procedures for participant eligibility, application procedures and program administration.

Policy
The Physician’s Hospital in Anadarko (TPHA) may provide charity care to patients who meet the criteria of this policy and do not have the financial means to pay for services provided. Charity care should be provided to patients who present themselves for care at TPHA without regard to age, sex, race, creed, color, or national origin and who are classified as financially indigent or medically indigent according to the terms of this policy. TPHA reserves the rights to limit charity care on a monthly and annual basis consistent with Oklahoma state law and the hospital’s financial resources. TPHA reserves the right to refuse charity care for elective services. A discount from the facility’s retail charges may be made available to uninsured patients who do not qualify for charity care, under the terms of this policy.

Charity Care Eligibility Criteria

A: Financially Indigent
   • A financially indigent person could be a person uninsured or underinsured and whose bill will result in no obligation or a discounted obligation to pay for the services rendered based on the eligibility criteria set forth in this policy.
   • To be eligible for charity care as a financially indigent patient, a person’s income shall be at or below the percentage of the federal poverty guidelines noted in Exhibit A. The system may consider other financial means of the applicant when determining eligibility.
   • The system should use the most current poverty income guidelines issued by the U. S. Department of Health and Human Services to determine an individual’s eligibility for charity care as a financially indigent patient.
   • TPHA may adjust the eligibility criteria from time to time based on financial resources and as necessary to meet the charity care needs of each community. TPHA may limit charity care to only those patients requiring emergent or urgent care.

B: Medically Indigent
   • A medially indigent patient is a person whose unpaid medical charges exceed their ability to pay and whose remaining bill will result in no obligation or a
discounted obligation to pay for the services rendered, based on eligibility criteria set forth in this policy.

- To be eligible for charity care as a medically indigent patient, the amount owed by the patient on a hospital bill after payment by third-party payers, if applicable, should exceed the percentage of the applicant’s annual gross income noted in Exhibit B, and the patient must be unable to pay the remaining bill. The hospital may consider other financial means of the applicant when ability to pay.
- Charity care for the medically indigent may be provided in an amount less than the patient liability.
- TPHA may adjust the eligibility criteria from time to time based on financial resources and as necessary to meet the charity care needs of each community. TPHA may limit charity care to only those patients requiring emergent or urgent care.

C: Uninsured Patient Discount Eligibility

- An uninsured patient who does not qualify as financially or medically indigent could receive a discount according to Exhibit C.
- The discounts made available to uninsured patients are permitted under terms of Senate Bill 500 passed by the 79th Legislature of the State of Oklahoma, Regular Session.

Procedure

A Identification of Charity Cases

- TPHA may inform each patient of the charity care program and how to apply. This may be done by posting notices in each patient registration area and providing a written notice to each potentially eligible patient.
- Patient Registration should attempt to identify any cases that may qualify as charity at the time of admission and offer the patient an application.
- Patients who desire to apply for charity care should complete a Financial Assistance application form and return it to the specified address.
- Patient Registration should refer patients who may qualify for financial assistance from a government program to the appropriate program, such as Medicaid.
- As soon as sufficient information is available concerning the patient’s financial resources and eligibility for government assistance, a determination should be made concerning the patient’s eligibility. The determination decision should be made within 30 days of receipt of complete application. A written notice should be mailed to the patient informing them of the determination decision. No collection efforts should be pursued on a charity account after such determination is made.

B Factors to be considered for Charity Determination

- The following factors should be considered in determining the eligibility of a patient for charity care:
  1. Gross income
  2. Family size
  3. Employment status
  4. Other financial resources
5. Other financial obligations
6. The amount and frequency of hospital/medical bills

C Failure to Provide Appropriate Information

- Failure to provide information necessary to complete a financial assessment may result in a negative determination, but the account may be reconsidered upon receipt of the required information. A determination of eligibility for charity may be made without a completed assessment form if the patient or information is not reasonably available and eligibility is warranted under the circumstance. Example: person residing in a shelter.

D Documentation of Eligibility Determination

- Once an eligibility determination has been made, the results of the determination should be noted in the comments section of the patient’s financial record.

E Recordkeeping and Reporting of Charity Care

- Charity care applications should be retained and kept on file for five (5) years. A copy of the patient’s application and all correspondence with the patient regarding the application, approval, denial and/or appeal should be maintained in the patient's file.
- Information regarding the amount of charity care provided by the System in its fiscal year shall be aggregated and included in an annual report.

F Uninsured Patient Discount

- An uninsured patient discount may be applied to uninsured patients who do not apply for, or do not meet the criteria of the requirements for, charity care. The uninsured discount could be applied at the time service is rendered for outpatient or non-urgent care (imaging services, elective procedures) using an estimated total charge amount for services known at that time. If the service is for an emergent or acute need (i.e. emergency services or inpatient care) the discount could be applied at the time of discharge or at time of billing, resulting in a reflection of the net charges on the patient statement. The discount should not be extended for elective or cosmetic services. The amount of the discount is noted in Exhibit C and may be changed by TPHA from time to time.

Definitions

Charity care: Inpatient and outpatient medical treatment and diagnostic services for uninsured or underinsured patients who cannot afford to pay for the care according to the guidelines of this policy. Charity care does not include bad debt, contractual allowances from government programs and insurance, uninsured Patient Discounts but may include insurance co-payments or deductibles, or both. The patient may have no obligation or a discounted obligation to pay for any services received which are deemed to be Charity care under this Policy.

Contractual Allowance: The difference between the level of payment established under a contractual agreement and the patients billable charges.
Elective Care: The patient’s condition permits time for medical services to be scheduled.

Emergency Care: The patient requires immediate medical intervention due to a severe, life-threatening, or potentially disabling condition. Generally the patient is admitted through the Emergency Room.

Patient: The terms “patient” and “person” are used throughout this Policy for ease of understanding and drafting. This policy applies to the Guarantor of the patient’s account. The term “guarantor” is interchangeable with the terms patient and person throughout this policy, when the guarantor is different from the patient.

Retail Charges: The standard rates charged to all patients, which do not reflect any contractual allowances or discounts. These rates are commonly referred as “gross” charges in the healthcare industry.

Uninsured Patient: A person receiving healthcare services who does not have private healthcare insurance and is not qualified to participate in a governmental program which provides healthcare benefits to eligible participants, such as Medicare and Medicaid, and for purposes of this policy, does not qualify for charity care.

Uninsured patient discount: The amount of discount applied to retail charges incurred by uninsured patients.

Urgent Care: The patient requires immediate attention for the care and treatment of a physical or mental disorder. Generally the patient is admitted to the first available and suitable accommodation.
Based on 2012 Annual Federal Poverty Guidelines

Note:

A person is Financially Indigent under Category A if their income does not exceed 150% of the FPG and their financial means are insufficient to render a payment for unpaid charges for services received. Persons qualifying under Category A receive charity care equal to unpaid charges.

A person is Financially Indigent under Category B if their income does not exceed 200% of the FPG and their financial means are insufficient to render payment for unpaid charges for services received. Persons qualifying under Category B are required to make monthly payments for 24 months as noted above, receiving charity care for the balance of the unpaid charges remaining.

Amount of each monthly payment: ................................................................. $40 ................................ $40
Number of months payments are due: ......................................................... 24 ................................ 24

Note:

A person is Medically Indigent under if their unpaid hospital charges exceed the amounts listed in the table above, for the corresponding family income levels and their financial means are insufficient to render a payment for unpaid charges for services received. Persons qualifying as Medically Indigent should be responsible for 24 monthly payments as noted above and receive charity care for the balance of unpaid charges.

*FPG (Federal Poverty Guidelines)
Charity Care & Uninsured Patient Policy

A person without healthcare insurance, who does not qualify for charity care, could receive an uninsured patient discount.

Uninsured patients could receive a general discount as noted below. In addition, TPHA may offer specific pricing to uninsured patients for certain common services.

The amount of the general discount could be up to 40%

I hereby request that The Physician’s Hospital in Anadarko make a determination as to my eligibility for Financial Assistance/Uninsured patient discount program. I affirm that the information provided on this application is true and correct to the best of my knowledge. I consent to any investigation or credit check made by The Physician’s Hospital in Anadarko or their representing agencies, to verify the information I have provided. I also understand that if the information I have provided is found to be false, such findings will result in an automatic denial for Financial Assistance/Uninsured patient discount program, and that I will be liable for charges for services provided.

Account #:

THE PHYSICIAN’S HOSPITAL IN ANADARKO thanks you for choosing our facility for your medical needs. In keeping with the values underlying our mission, we are committed to making a measurable difference in the health of the individuals in the communities that we serve. An important element of this commitment is helping, within the resources reasonably available to us, to meet the healthcare needs of uninsured and underinsured patients in a manner that treats patients and their families with dignity, respect and fairness. We hope that you have found our financial assistance program a positive experience and thus that you will share any suggestions on how we can improve this process in the future.

Based on information that you submitted on your confidential Application for Financial Assistance or Uninsured Discount Program, we have determined your eligibility to be as noted below:

Payments of $ ____________ per month for ____________ months.

Followed be an adjustment of __________% of estimated account balance gross charges.

Estimated gross charges are based on the services and charges we can reasonably expect you will require during your admission to our facility. This is only an estimate. The amount of final charges will depend on the actual services rendered during your stay and may be less or more than the estimate provided. If you have any questions regarding the estimate, please contact one of our Account Representatives.

The amount of final discount, if any, you have received was based on an assessment of your income and expenses compared to the Federal Poverty Guidelines issued by the United States Census Bureau and a discount scale we offer based on these guidelines. The amount of assistance offered for medical catastrophe, if any, you received was based on the assessment of your specific circumstance regarding medical costs and other related factors disclosed in your application in addition to the income and expenses guidelines as outlined above.

Please be aware that you are responsible for any payments due as noted above. Our ability and willingness to continue to grant discounts to patients, such as you, is dependent on patients, such as you, promptly paying amounts due. The facility may turn any unpaid amounts over to a collection agency, which could affect your credit status. We may also sell you unpaid bills to a company that could pursue collections from you, in which case we would no longer be able to provide you any financial assistance or payment options. We would like to work with you to avoid any such situations, so it is important that you let us know if you will have trouble making your monthly payment.

Should you have any questions regarding our determination of your financial assistance and patient responsibility, please contact an Account Representative at __________________________________________________.

Thank you.
